SVI is your answer!

SVI has been serving the lift industry since 1977. The SVI Recreation line was established in 2000 and is a continually growing product line. Our customers depend on us to get them the products they need—quickly. SVI offers top quality OEM-compatible replacement parts for many different lift makes and models. If you don't see what you need here, let us know. Most likely we have it, or we can get it! Give us a call! We are proud of our same-day shipping service and we currently have warehouses in Baltimore, Chicago, and Los Angeles.

Product Innovation *is an important factor with SVI. Our engineers are always working to create new products and often improve on the parts you're already buying.*

Have any product ideas? *Our engineers will work with you to come up with a solution for any problems you might be experiencing. Need a custom made part? Our degreed mechanical engineers can help you.*

Did you sell a lift and now the OEM is out of business?

Never be embarrassed in front of your customer again! SVI will work with you to make any obsolete parts available. Once we make the part, it will be available from SVI forever.

THREE EXCELLENT FABRIC CHOICES FOR YOUR BOAT LIFT CANOPY COVER:

Shelter-Rite® by Seaman Corporation Premium PVC-Coated Polyester

	TAN		MARINE		ROYAL		BLACK
	RED		MAROON		GREEN		ORANGE
	GRAY		YELLOW		BROWN		WHITE

This "Made-In-America Premium Fabric" is engineered to meet and exceed extensive performance criteria. Shelter-Rite® is an 18 oz. PVC-coated high-tenacity polyester material that will not rot, shrink or stretch and offers unparalleled adhesion (to reduce wind whip), color match and colorfastness. This is the best PVC-coated fabric we've found from anywhere in the world. It outperforms all others. These covers are also constructed by using heat-welded seams in the main body of the cover to create a waterproof environment for your boat. Note: Shelter-Rite® fabric is the most consistent in color year-to-year, roll-to-roll and cover-to-cover. Seaman Corporation uses computerized pigment formulation equipment that all but eliminates this issue. (Occasional sheen variation can create the appearance that colors vary ever so slightly). Covers made of Shelter-Rite® are covered under the canopy manufacturer's 7-Year Limited Warranty.

Shelter-Rite® by Seaman Corporation SLT13 13 oz. Lightweight Polyester

	TAN		WHITE		ROYAL		GREEN
	GRAY		MAROON				

The foundation of this new LIGHTWEIGHT Shelter-Rite SLT13 is identical to the Shelter-Rite 18oz fabric except the underside coating was reformulated and reduced to 1.5 ounces. We are able to reduce the weight of the fabric while maintaining the same tear resistance, ultra violet and anti-fungal protection, and water tightness as SR18. All cross seams are heat welded (not sewn). SLT 13 will not stretch, shrink or rot. Note: Shelter-Rite® fabric is the most consistent in color year to year, roll to roll and cover to cover. Seaman Corporation uses computerized pigment formulation equipment that all but eliminates this issue. (Occasional sheen variation can create the appearance that colors vary ever so slightly.) Covers made of Shelter-Rite® are covered under the canopy manufacturer's 7-year limited warranty.

Harbor-Time™ Premium Woven Polyester

	BEIGE		NAUTICAL		SHALE		PUTTY
	MALLARD		CORDOVAN				

Harbor-Time™ is a "Premium Woven Polyester, American-Made Fabric" that has an extremely durable "pigment-stable" acrylic coating on both sides of the material. An acrylic coating retains a beautiful soft cloth appearance and insures a long lift cover life. Harbor-Time™ fabric was designed for high-UV and high-moisture environments and is superior to all other leading fabrics we have tested. With a Harbor-Time™ canopy, you will get compliments on the inviting appearance.

Covers made of Harbor-Time™ are covered under the canopy manufacturer's 5-Year Limited Warranty.

ShoreStation® is a registered trademark of Midwest Industries and SVI International, Inc. does not sell ShoreStation® brand products of any kind.

Dock / Pier Parts & Accessories

Augers / Bottom Plates

NEW! Composite Augers Includes galvanized bolt and nut fasteners.

Ideal for Dock Installers, Marinas, Home Docks, and More!

Add extra security to your lightweight aluminum dock if you plan to moor a boat directly to the dock. Use these Composite Augers to prevent the dock from being flipped over with your boat yanking on it.

Features a tapered shank to allow them to fit common 2" O.D. dock poles with a standard wall thickness of 0.088" and also heavy duty 2" O.D. pipe with 0.120" wall thickness. Auger for 1-5/8" OD Poles fits 0.130" wall thickness.

Makes for easier installation! Suitable for use in extreme muck when you need to grip the bottom below it.

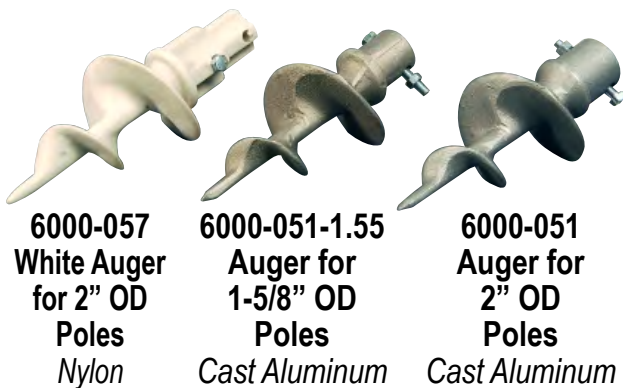

4043-020 Composite Auger for 2" OD Poles

4043-021 Composite Auger 1-5/8" OD Poles

Top Quality! " great alternative to cast aluminum augers.

Finally, an auger that doesn't break in half like the cast aluminum augers, or add senseless weight to an install!

Works with P-Shape
Vinyl Edging

Polyurethane Corner Bumper

4045-601

*Slips over existing P-Shaped Dock Bumpers
to Act as a Second Layer of Corner Protection*

- Can be used as a stand-alone corner
- Tapered end radius entrance is designed to eliminate or reduce tear off or pull away when impacted
- Fits Most Standard P Shapes
- Made in the USA!

FEATURES:

- Cellular Urethane Foam
- Excellent Resilience
- Good Low Temperature Flexibility
- Mar Resistant Textured Surface
- Great Durability
- UV Protected
- Custom-Tailored to fit our 3 sizes of P-Shape Dock Bumpers

Vinyl Corner Bumpers

Works with P-Shaped Dock Bumpers

This flexible PVC corner is made in a solid one piece construction.

Durable, flexible, yet with great resilience, this corner is the newest addition to our line of Corner Bumpers. Designed to be used with most industry-standard P shape dock bumpers, or stand alone.

4045-610-B 10" x 10" (4" Height) - Black

4045-610-W 10" x 10" (4" Height) - White

WHO IS SVI? SVI RECREATIONAL IS YOUR ONE-STOP SHOP.

Dock / Pier and Boat Lift Accessories

NEW! Boat Lift Step Over

4043-012 Boat Lift Step Over

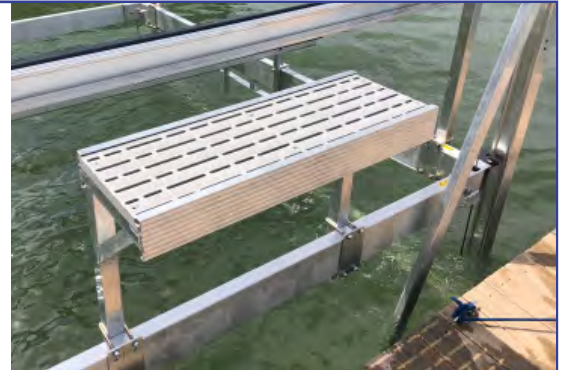

UNIVERSAL STYLE FOR MANY BOAT LIFT MAKES / MODELS

Ideal for Dock Installers, Marinas, Home Docks, More!

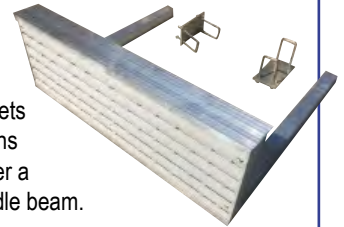

The Boat Lift Step Over requires a V-cut lift frame (the outer boat lift frame itself, not the cradle, as pictured) on the dock side to avoid interference as the step travels up and down with the cradle. The vertical mounting tubes measure 32" tall, and has 20" of space between the angled support gussets and the bottom of the tube, so theoretically you can have 12-13" of vertical adjustability depending on the size of your lift cradle. The TITAN gray composite tread is 1' x 3' and provides a grippy surface for confident loading and unloading.

IMPORTANT NOTE:

The boat lift step over will NOT work on ShoreStation® Brand lifts or any other brand which has a horizontal bar on the side of the lift frame itself.

The universal 4043-012 **Boat Lift Step Over** comes with U-bolt brackets and have two hole options which allows it to fit either a 2"x 5" or 2"x 6" side cradle beam.

Boat Lift Wheel Crank Knob

NEW! Wheel Crank Knob

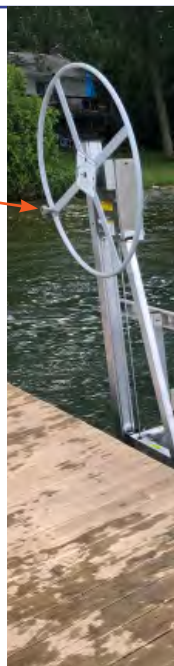

4043-030 Boat Lift Wheel Crank Knob (1)

Full Spinner Knob—The ergonomic design makes it gentle on the hand and easier to crank than most OEM knobs. The long neck on this rugged boat lift knob helps to eliminate bloody knuckles from scraping the wheel as you spin!

Back-to-Back Flange Nuts Recommended.

Rated for outdoor use with UV stabilizer.

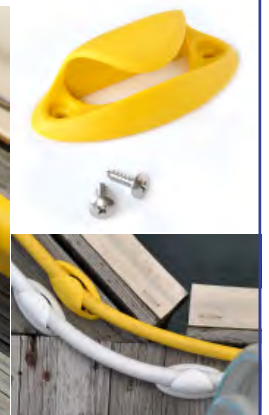

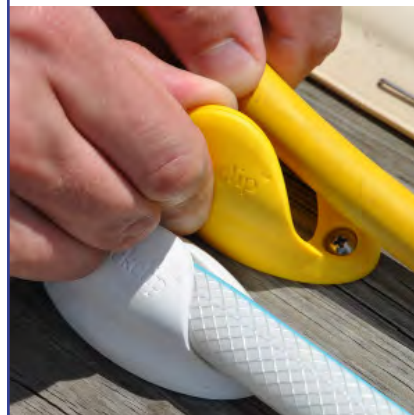

Dock Hose & Cord Organizer

NEW! Marine Cable Organizer

4043-031 Dock Hose and Cord Manager

- Organize and manage electrical cable and hoses
- Great for marinas or anyone looking to tidy up their piers!
- Perfect for Shore Power Cords, Water Hoses, Deck Brush Handles, and more
- Flex-release design fits heavy gauge electrical cords or standard-diameter flush hoses.
- Available in Safety Yellow
- Not just for docks / piers—perfect for wires, cables, hoses, more!

Call for details, or to customize your solar charging kit to your needs.

KEY FEATURES:

- Easy Installation — Mounts to Any Boat Lift
- No Regulator Required
- High Efficiency Mono-Crystalline Solar Cells
- Anodized Aluminum frame
- 20+ Years Lifetime Panel Rating
- Can be used for DC boat lifts and boats
(Voltage specified for each kit)
- Adjustable angle for maximum solar charge
- Angular design allows for panel to clear canopy covers
- Instructions and Wiring Diagrams
- Standard Includes 36" Mounting Arm, Bracket, & Hardware
 - Upgrade Option: Longer Mounting Arms Available (48" or 72")
 - For Shorter Mounting Arm, See 4050-079 PWC 12" Arm Kit

4050-015 • 5 Watt / 12v Kit Includes:

- 5 Watt Solar Panel for charging 12v Batteries.
- Panels pre-wired with 20' cable and 3/8" ring terminals
- 36" Mounting Arm, Bracket, & Hardware
- Stainless Steel Worm Strap
- Optional Quick Connect Connector

4050-079 • 5 Watt / 12v PWC Kit Includes:

- 5 Watt Solar Panel for charging 12v Batteries.
- Panels pre-wired with 20' cable and 3/8" ring terminals
- 12" Mounting Arm, Bracket, & Hardware
- Stainless Steel Worm Strap
- Optional Quick Connect Connector

4050-014 • 10 Watt Kit Includes:

- 10 Watt Solar Panel for charging 12v Batteries.
- Panels pre-wired with 20' cable and 3/8" ring terminals
- Mounting Arm, Brackets, & Hardware
- Stainless Steel Worm Strap
- Universal Battery Tray - (If you have a Canopy on your lift, we strongly **recommend** you upgrade to the single hanging battery tray)

4050-016 • 20 Watt / 12v Kit Includes:

- 20 Watt Solar Panel for charging 12v Batteries.
- Panels pre-wired with 20' cable and 3/8" ring terminals
- Mounting Arm, Brackets, & Hardware
- Stainless Steel Worm Strap
- Universal Battery Tray - (If you have a Canopy on your lift we strongly **recommend** you upgrade to the single hanging battery tray)

4050-017 • 20 Watt / 24v Kit Includes:

- 20 Watt Solar Panel for charging 24v Batteries.
- Panels pre-wired with 20' cable and 3/8" ring terminals
- Mounting Arm, Brackets, & Hardware
- Stainless Steel Worm Strap
- Dual Hanging Battery Tray - (If you have **DO NOT** have a boat lift canopy you may use two Universal Battery Trays to mount both batteries)

Many Configurations and Options Possible! We can help customize to your needs.

Safety Solar Beacon Lites

Flashing Beacon Warning Lights (1+ nm Visibility)

This highly-visible light serves as a warning light to alert boaters of marine hazards. The Solar Beacon Light is fixed in a flashing mode of 1 Flash/Second—there is NO constant mode. However, there is a switch on light to turn it on or off. The Solar Beacon Light can be used in universal applications such as boat house, safety lighting, channel markers, buoys, obstruction lighting, or mooring lights.

**High grade construction withstands both
fresh-water and salt water environments.**

The light comes installed with 6 Ultra High Intensity LEDs making it visible at over 1 nautical mile at a radius of 360 degrees. A fully charged battery will power the light for 40-45 hours in the flashing mode. The Solar Beacon Light comes installed with a high-grade NiMh battery that has a service life of 3-4 years, however, the battery is not replaceable.

Solar Lights and Accessories

4050-013 Available in White or Blue **EZ-Dock Solar Lites (2 Pack)**

Light up your EZ dock and fill those empty pockets. These Solar Lights for EZ Dock provide ambient top-emitting pathway lighting, while radiating safety lighting from the side for boaters to see. On a full charge, the EZ Dock Solar Lights will run for up to 18 hours.

**Both fresh water and salt water rated,
and withstands light traffic and walking.**

These lights have a powerful solar panel that charges the high-quality user-replaceable batteries during the day so the light is ready to automatically turn on at dusk. Batteries are included. Installation is simple—no mounting hardware is needed!

4050-058 Solar Dock Dots 4-Pack

Solar Dock Dots are the smallest dock solar lights available! A flush mount makes them virtually unnoticeable during the day and offer an ambient glow at night. A super bright LED and powerful solar panel provide the solar dock dots with an impressive illumination. Dock Dots are the perfect and easy way to light up the dock, stairs, or deck. The Solar Dock Dots come with user-replaceable 1/3 size AAA batteries already installed (be sure to pull the tab before the first use!).

Easy to install in minutes using a 1-3/8" drill bit.

Available in 5 Colors:
White • Blue • Green
Red • Amber

4050-065 6" Solar Cleat Lite

Includes extra Solar Cleat Light Pod, which is a replacement Solar Panel / LED / Battery Vessel

Two white super bright LEDs and powerful solar panel provide brilliant illumination that lasts all night long when fully charged.

4050-066 8" Solar Cleat Lite

Mounting Kit for Shorestation Available—Just ask!

Perfect for all types of docks with the same bolt pattern as most popular nylon 8" cleats. Two ultra high intensity LEDs illuminate outward from both sides of the cleat, providing all night illumination. Easily mounts to all types of docks including the EZ-Dock & Wave-Armor brand floating docks. The bolt patterns are exactly the same as the bolt inserts. You can even use your existing hardware and bolts! Mounting screws / bolts are not included, but mounting bolts for EZ Dock are available.

For Diamond-Shaped Pockets on Connect-A-Dock Docks

4050-068 8" Solar Cleat Lite for Connect-A-Dock Brand Docks

A great substitute for your existing 8" cleats for diamond-shaped pockets on Connect-A-Dock docks. Simple installation and reliable lighting keeps you from tripping over cleats at night. Two ultra high intensity LEDs illuminate outward from both sides of the cleat. The Solar Cleat Light for Connect-A-Dock fits existing hardware from Connect-A-Dock.

4050-067 10" Solar Cleat Lite

Easily mounts to All types of docks including the EZ-Dock & Wave-Armor brand floating docks.

Durable anodized marine-grade aluminum for superior protection in harsh environments. Waterproof electronics and protective design ensure longevity. An ultra high intensity white LED provides 14-18 hours of light on a full charge. Two brightness settings. Mounting holes are configured for easy installation with standard hardware to any style dock and various floating docks.

Solar Lights and Accessories

4050-087 Solar Rail Lights Silver Finish

Solar Rail Light is the most advanced, powerful, robust solar light available. Patented magnet technology allows users to easily adjust between 7 brightness levels to meet seasonal performance expectations. The downward-shining LED is concealed from view during the day, but provides an elegant ambient glow at night. Perfect for lighting up walkways, stairs, boardwalks, dock surfaces, seawalls, or dock pilings.

Choose Between White and Amber LEDs

Solar Post Lights

4050-076	Solar Post Light with Lens - Fits 4"x4"
4050-077	Solar Post Light with Lens - Fits 5"x5"
4050-075	Solar Post Downward Light - Fits 4"x4"

These Solar Post Cap Lights are the most advanced, powerful, robust solar light available. Patented magnet technology allows users to easily adjust between 7 brightness levels to meet seasonal performance expectations or personal preference. A simple swipe of the magnet quickly changes brightness on the fly! **Choose between Cap Light with Lens or Downward Lights.**

Tired of replacing solar lights every year? No worries! Our Solar Post Cap Light with Lens is made-to-last and are of superior quality! These are NOT your big box store throw-away or replace-every-year lights! Durable die-cast aluminum construction, advanced user-replaceable lithium phosphate battery, fully waterproof IP-68 electronics, attractive UV-protected polycarbonate lens, and tempered glass laminated solar panel ensure extraordinary service life.

Solar Post Cap Lights with Lens are so bright on the highest setting that they are equal to or even brighter than most 12v low voltage lights on the market! Internal adaptor allows the 4x4 Solar Post Cap Light unit to fit on both 4x4" vinyl posts and 4x4 wood posts (measuring 3-1/2" x3-1/2"). Also, see the 4050-076 Cap Light to fit 5"x5" Vinyl Post Covers.

Solar Lights and Accessories

Solar Piling Light

The 8" Solar Piling Light is the most advanced, robust, and aesthetically appealing solar piling light on the market. This newly updated solar piling light is equipped with innovative patented magnet switch technology allowing users to easily adjust between 7 brightness settings and three colors! A simple swipe of the magnet quickly changes color or brightness on the fly.

The 8" Solar Piling Light is equipped with 24-Super bright high-efficiency LEDs (8-White, 8-Blue, and 8-Amber) facing in a downward position to eliminate blinding eye glare and provide more ambient light. Hold a magnet for 5 seconds over the solar panel and the solar piling light will change between the illuminating colors. Swipe the magnet quickly over the solar panel to adjust between 7 brightness levels or "OFF" on any of the colors. Constructed of die cast aluminum with a powder coat finish, this light is very durable. Choose from White or Black finishes to suit your aesthetic dock requirements.

MANY APPLICATIONS:

- Docks
- Buoy
- Safety & Hazard
- Mooring Lights
- Piers
- Yacht Clubs
- Obstructions
- Bridges
- Marinas
- Boat Houses
- Barge Lights
- Boom Lights

3-Color LED Switchable—White, Blue, Amber

4050-095	Solar Piling Light - White Finish
4050-096	Solar Piling Light - Black Finish

The Solar Piling Light has an advanced microprocessor control circuit which monitors every aspect of the light and has protective features to prevent overcharging, over discharging, output control, and constant brightness technology. Equipped with the industries latest LiFePo4 battery technology, the Solar Piling Light will run for years on the same battery and is easily replaceable.

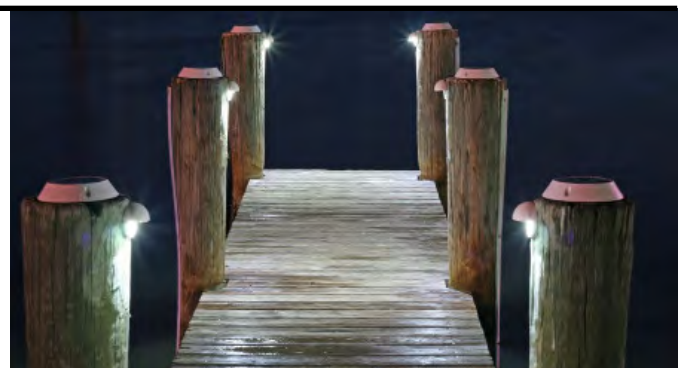

Solar Piling Down Light

The Solar Piling Down Light provides unique aesthetically appealing indirect lighting downward on the dock surface. Constructed of die cast aluminum with a powder coat finish, this light is very durable. This newly updated solar piling down light is equipped with innovative patented magnet switch technology allowing users to easily adjust between 5 brightness settings! A simple swipe of the magnet quickly changes brightness on the fly. The separate down light is included with 1-meter of wire which allows mounting of the LED down light at any height for desired lighting affect. Turtle-friendly Amber LED option is available for turtle-conscious lighting requirements.

The Solar Piling Down Light has an advanced microprocessor control circuit which monitors every aspect of the light and has protective features to prevent overcharging, over discharging, output control, and constant brightness technology. Equipped with the industries latest LiFePo4 battery technology, the Solar Piling Down Lights will run for years on the same battery and is easily replaceable.

Solar Lights and Accessories

Solar Pagoda Piling Light

The Solar Pagoda Piling Light provides the classic Florida dock appearance without the hassle of electrical wires. A super bright LED illuminates the fixture to provide a soft, ambient glow that does not blind the eye. It features patented magnet technology allowing for a quick change of LED intensity for adjustment of the 5 brightness settings.

The fast and simple brightness setting allows the user to change the light brightness and light run time based on seasonal weather conditions or personal preference. The Solar Pagoda Piling Light is available in white powder coat finish with a White or Amber LED.

Constructed of durable marine-grade aluminum with a powder coat finish, this unit is waterproof. The Solar Pagoda Piling Light includes a high capacity, user-replaceable battery that has a service life of 3-6 years. Easy-to-install in just minutes.

MANY APPLICATIONS:

- Docks
- Pilings
- Jetties
- Pontoons
- Piers
- Yacht Clubs
- Marinas
- Bridges
- Piles
- Boat Houses

Solar Underglow Dock Light for Brock Docks

Indirect downward lighting provides a unique, useful lighting effect on the dock surface. The Solar Underglow Lights for Brock Docks is designed to fit Brock Dock Brand Post covers or 3.5" OD post covers or post. Six bright LEDs positioned around the unit shine light downward and outward. The LED's illuminate the dock post as well as the dock surface providing indirect lighting. Solar Underglow Lights for Brock Docks have a large solar panel, which allows more power from the sun to ensure full charging resulting in all night light run times.

If you are wishing to create an extremely sharp appearance while adding safety and elegance, Solar Underglow Lights for Brock Docks are the perfect solution. Picture your Brock Dock with these amazing lights! Solar Underglow Lights for Brock Docks are easy to install and come with user-replaceable batteries.

Available in either **WHITE** (matches Alpine White) or **TAN** (matches Desert Tan).

**Choose
White, Amber
or Blue LEDs**

Solar Lights and Accessories

Solar Sky Lights with Infrared Motion Sensor

Solar Sky Light with Motion Sensor is an intelligent outdoor lighting system that provides powerful lighting in an all-in-one package. During the day, the highly-efficient solar panel collects energy from the sun and stores that power in the advanced lithium battery (included). At night, the powerful LEDs automatically turn on providing ambient light. There are no switches to turn on as this unit is automatically activated by motion in the dark. Furthermore, the solar system avoids the hassles of electrical wiring and there is no electric bill! The easy-to-install compact kit comes with fully illustrated instructions and sets up in just minutes.

Our most popular and economical Solar Sky Light with Motion Sensor model features a 15-watt solar panel with a 5-watt LED producing in upwards of 540 lumens (Equivalent to a 100w incandescent bulb).

Step up to the 25-watt solar panel with 10-watt LED for an astonishing 1080 lumens! (Equivalent to a 200w Incandescent Bulb)

We also offer custom-built larger Solar Sky Light with Motion Sensor models and change programming functions or lighting modes for any application. Please contact us for a quote on custom sizes.

The mounting pole is not included with the kit.

Solar Sky Light Highlights:

- Self-Sufficient
- Automatic Dusk-to-Dawn
- No Wires or Cables
- No Electrical Cost
- Compact Design
- Motion Sensitive
- Easy Installation
- Long-Lasting Battery
- Super Bright LED
- Integrated Fuse
- Mounts to Any Pole
- Zero-Maintenance
- Motion Activated

When motion is detected, the super bright LEDs double in brightness to provide an abundance of extra lighting in the area. After 5-minutes or no motion, the light drops down in brightness to reserve power. This intelligent feature allows the Solar Sky Lite to save power when light is not needed resulting in much longer run times and brighter lighting than other solar lighting systems. The IR sensor of the Solar Sky Light is the practical way to enjoy brighter than normal light when needed.

Solar Sky Lights with Motion Sensor

4050-074-12 Solar Sky Lite with PIR Sensor

4050-074-25 Solar Sky Lite with PIR Sensor

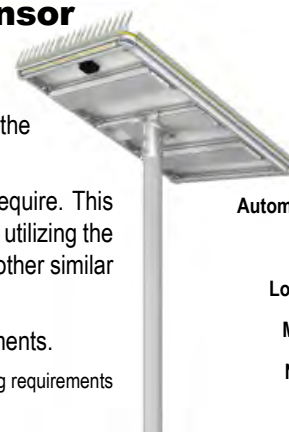

Solar Street & Marina Light with Infrared Motion Sensor

This intelligent outdoor lighting system provides powerful lighting into an all-in-one easy compact easy-to-install package. During the day, the highly-efficient solar panel collects energy from the sun and stores that power in the advance lithium battery. At night, the powerful LEDs of the Solar Street & Marina Light automatically turn on providing ambient light for all to enjoy.

When motion is detected the super bright LEDs can increase brightness at percentages you require. This intelligent feature allows the Solar Street & Marina Light to save power when no one is in range or utilizing the light, meaning much longer run times and much brighter lighting than you would expect from any other similar size solar lighting system

Lighting times, dimming and all aspects of this system can be programmed to meet your requirements.

- Optional Bluetooth or GPRS control can be added so that you can adjust the programming, of the light to meet changing requirements over time or easily update performance of the light as the season and weather conditions change.
- Optional Advance Dual Battery Management System switches between two advance Lithium Phosphate Batteries yielding up to 8 years before battery maintenance.

- Self-Sufficient
- No Electrical Cost
- Easy to Install
- Integrated Fuse
- Automatic Dusk-to-Dawn
- Compact Design
- Long-Lasting Battery
- Mounts to Any Pole
- No Wires or Cables
- Motion Sensitive
- Super Bright LED
- Zero-Maintenance

SSL Series Lights—Call today for more information!

Solar Lights and Accessories

The Solar Illuminating Buoys help to eliminate nighttime boating accidents involving buoys because they can actually be seen in the dark! Keep boaters aware of obstacles or navigational hazards all night long and put an end to embarrassing, dangerous, and expensive mistakes. With the Pencil Buoys, the navigation information / warning message can be read both day and night! A swipe of a magnet will change LED color from white to amber or blue to make it stand out even more, or to help distinguish from shore lights. Whether a private homeowner, or a lake association member, the Solar Illuminating Buoy is the perfect solution to making boating and swimming much safer, both day and night! Mark your Shore Line, Swim Area and Other Obstacles.

Swipe the magnet over the solar panel at night to change between 7 brightness levels for user-adjustable brightness and run times. Hold the magnet for 5-seconds and you can change between White, Blue, or Amber illuminating LEDs! That's right, a simple swipe and you can adjust the brightness/run time and buoys illuminating color!

The powerful solar panel of the Solar Illuminating Buoy collects the sun's energy during the day. At night the integrated circuit automatically turns on the super bright LED which lights up the entire body of the buoy. The labels create shadows of the message, logos, and bands, that allow boaters to visibly read the solar illuminating message on the buoy at night. Lighting When You Need It!

Electric Winches

- Features Power-In, Power-Out, controlled Freewheeling clutch and automatic brake
- Available in 120 volt AC and 12 volt DC models
- SA models equipped with flexible high strength 7 x 19 galvanized aircraft cable (except SA9010AC) All SA models will also accept 2" wide strap
- Emergency crank handle is standard equipment

StrongArm®

SVI—your source for
Dutton-Lainson Products

DC Models

AC Models

SA Remote Control Models

- Both AC & DC models available with built-in remote control
- Hand held switch pendant w/10' cord
- Includes dynamic brake feature

AC Models

- 120 volt AC operation complete with 10 foot, 3 wire grounded power cord and built-in 3 position rocker switch.
- Available with CSA NRTL/C approval, signifying the winch has been evaluated to applicable ANSI/UL and CSA standards for use in the US & Canada. NRTL (Nationally Recognized Testing Laboratory) is a designation granted by OSHA to laboratories which have been recognized to perform certification to US standards.
- 6349 Dual Switch Remote Control with dynamic brake feature is available factory installed (see chart) or separately.
- Model SA9010AC is designed for davit applications in and near salt water environment. It includes SA9000AC less clutch (eliminates freewheeling) and cable. Power-In and Power-Out only with stainless steel reel. Also includes GFCI breaker and 6349 dynamic brake remote.

**MADE IN
USA**

DC Models

- High-torque 12 volt DC motor has circuit-breaker overload protection.
- StrongArm DC electric winches have a dynamic motor brake as well as a mechanical friction brake to securely hold the load.
- DC models include wiring harness (25 foot positive battery wire and 8 foot ground wire).
- Remote control available built-in (see chart below) or as a kit on page 3.

8000-107	6365	Quick Mount Kit for easy winch installation and removal.
8000-110	6368	Mounting Adapter Plate to properly mount winch on narrow stands
8000-079	6170	GFCI Breaker for 120 volt AC SA winches. 15 amp, 125 volt, 3 conductor 14 ga wire, 10'. Water resistant
8000-109	6367	In-Cab Remote Switch for 12 volt DC SA models. Mounts under dashboard
8000-116	6385	Electrical Quick Connect for all 12 volt DC SA models and TW9000
8000-085	6288	Electrical Quick Connect for TW4000
8000-108	6366	Ball Adapter Plate, makes SA series winch available for instant mount operations, Tuffplate Finish
8000-100	6349	Dual Switch Remote Control, CSA, fits all 120 volt AC SA winches. Dynamic brake supplements mechanical brake to bring a load to an immediate halt without coasting.
8000-112	6371	Remote Hand-Held Switch for 12 volt DC SA winches. Permits user to operate winch from up to 10' away
8000-104	6362	Wiring Harness, fits 12 volt DC SA models except those ending in 15. 25' power cable, 8' ground cable, #8 wire with switch and 80 amp circuit breaker
8000-123	6575	Wiring Harness, fits TW4000. 25' power cable, 8' ground cable, #12 wire with 40 amp circuit breaker
8000-124	6576	Wiring Harness, Fits TW9000 and SA models ending in 15. 25' power cable, 8' ground cable, #8 wire with 80 amp circuit brkr
8000-113	6372	Remote Hand-Held Switch for 120 volt AC SA models. Provides 10' remote hand-held switch unit for wiring directly to winch. Pendant has "In-Off-Out" switch similar to power switch provided on all 120 volt AC SA models.
8000-114	6373	Plug-in connector. Accessory for 8000-113 (6372) & 8000-100 (6349) remote switch kits
8000-115	6383	In-Cab Remote Switch Kit for 12 volt DC SA models. Includes heavy duty 3-position rotary switch, 80 amp circuit breaker, 15' (=) and 5' (-) battery wires and two 10' switch-to-winch wires. Can be mounted in vehicle dashboard. Plugs directly into winch switch pocket without rewiring.
8000-111	6370	Angle Mounting Plate for mounting all SA winches to trailer winch stands where insufficient room & improper angle are present

Hand Winch Selection Guide

General Winch Selection Guidelines

Because the high forces generated when using a winch create potential safety hazards, careful consideration should be given to the winch selection process. Safety should be a primary concern and questions such as what winch features are required for the application, what will be the experience level of the user, and what harsh environmental conditions will exist, should all be answered. More specifically, an important first question should be, "Does the application require the freewheel feature - the ability to pull cable freely from the drum to attach it to the load- available in ratchet -type pulling winches?" If not, a self-locking type winch - brake winch or worm gear winch- should be used. Generally, ratchet-type pulling winches are not recommended for lifting applications, and their use is discouraged in other than horizontal or incline pulling operations requiring a freewheeling feature.

The experience or skill of the intended user is also important. For example, self-locking brake or worm gear type winches should generally be selected for rental equipment, even if the lack of a freewheel feature will make the operation slower or more cumbersome. This is because rental equipment will frequently be used by inexperienced operators unfamiliar with the safe use of the product, and self-locking winches reduce the skill and understanding necessary to operate a winch safely. If the winch is likely to be used in a harsh environment, including such things as salt water, a potential for damage or abuse of the winch, or the likelihood of little or no periodic maintenance, then this should be factored into the winch selection. A larger size winch should possibly be selected, or guards on the product using the winch should be provided to protect the winch from damage or abuse.

It is sometimes difficult to determine the amount of load being pulled with a winch. All D-L hand winches are designed to pull their rated capacity with a force on the handle in the approximate range of 35 to 55 pounds. This means that the winch should be able to be cranked easily with one hand. If not, it is probably overloaded. D-L winches are not designed to be used as hoists for lifting, supporting, or transporting people, or for loads over areas where people could be present. D-L winches are built to high quality standards, but do not include the features necessary to make them appropriate for moving of humans or overhead hoisting applications.

Boat Weight to Winch Capacity Ratios

A commonly used ratio of boat size to winch capacity is 2 to 1. Example: a 2200 lb boat requires an 1100 lb winch. There are, however, many factors to consider in selecting the proper size winch which are beyond the control of the winch manufacturer. For example, the ratio can sometimes be stretched to 3 to 1 when using a trailer equipped with good quality free-turning rollers maintained in excellent condition and most commonly used on ramps where the boat floats most of the way onto the trailer. The ratio should be reduced to as much as 1 to 1 on trailers using wooden bunks with no self-alignment capabilities, most frequently used on boat ramps requiring that the boat be winched a long way onto the trailer. Note that pontoon boat trailers and other special designs require special consideration for winch capacity selection.

Rolling Load Capacity

To calculate the rolling load capacity of a winch - the amount of load that can be pulled up an incline - multiply the winch capacity by the factor shown in the chart. The multiplication factor shown includes a 10% rolling friction factor.

Note: 5% incline is a 1/2 ft. rise in 10 ft.

% incline	Multiply By:
Level Surface	10.0
5 (3°)	6.67
10 (6°)	5.02
20 (11°)	3.4
30 (17°)	2.61
50 (26°)	1.86
70 (35°)	1.53
100 (45°)	1.29

Pulling Winches with Ratchet Feature

- Laminated, high carbon steel gears for longer life
- Gears are arc-welded and drive shaft gears are copper brazed for durability. All gears in models DL1300A thru DL3500B are heat treated
- Rigid, welded reel construction for added strength
- Freewheel when the ratchet is disengaged
- Load matched gear ratios for easier cranking
- Variety of finishes available - powder-coated copper bronze - Black or zinc plated TUFFPLATE® finish.
- All plated parts are zinc plated TUFFPLATE® finish
- Heavy duty steel handles with ergonomic molded grips. Quick attach handle is standard equipment on 2-speed models
- Embossed, reinforced bases
- All drive shafts have permanently lubricated bearings
- 2-speed models have a drive shaft system which allows for both high and low speed cranking from one side
- 5 models available with 2" strap installed
- Full color trilingual (English, French, Spanish) laminated carton standard for models DL400 - DL3200A
- Individual winch straps available
- Cable clamp included on models DL1100A-DL3500B. Cables sold separately
- Models DL400 - DL3200A Equipped with slots in reel for easy installation of optional strap. Strap not included on all models
- DL400 has ratchet lever drive
- Hand brake available on heavy duty models
- Sleek, molded cover available for models DL1402A, DL1802A, DL1800A & DL2102A
- Reel gear covers optional for DL1100A - DL2500A
- Base plates fit BIA standard mounting hole pattern for easy installation
- Meets SAE Standard J1853. When using cable, select optional large hub.

D-L pulling winches are best suited for boat trailer and other horizontal pulling applications which require the freewheeling feature of ratchet type winches. D-L pulling winches are available in models from 400 lb to 3500 lb capacity. Models from DL1402A to DL3200A have a patented reversible ratchet to allow cranking cable or strap onto the drum in either direction. A hand brake to help control the Freewheel mode is optional on Heavy Duty models and standard equipment on the DLB3500B

US Patent 6,116,580
(Foreign Patents Pending)

The Superior Zinc Plated Finish

Zinc-plated yellow chromate TUFFPLATE® finish has 3 times the corrosion resistance of standard zinc-plated trivalent chrome process, and 30% greater corrosion resistance when compared to powder coated finish.

Results of laboratory tests using a 5% neutral salt spray confirms our TUFFPLATE® finish provides in excess of 500 hours against First Red Rust and in excess of 100 hours for First White Corrosion.

The Exclusive TUFFPLATE® finish process is standard on all D-L plated products.

D-L pulling winches are not recommended for lifting applications. For lifting, use a D-L brake or worm gear winch. D-L winches are not to be used as hoists for lifting, supporting or transporting people, or for loads over areas where people could be present.

(1) Hand brake standard equipment

(2) Capacity based on direct line pull on the 3rd layer of line on the drum. Capacity is reduced as the line builds up on the drum

(3) Drum Capacity based on cable size listed. (Cable not included.)

D-L pulling winches are not recommended for lifting applications. For lifting, use a D-L brake or worm gear winch. D-L winches are not to be used as hoists for lifting, supporting or transporting people, or for loads over areas where people could be present.

Options Available

With Straps

Just add -S to the end of Part #

DL400 - 12' strap

DL900A - 15' strap

DL1100A - 15' strap

DL1402A - 20' strap

DL2500A - 25' strap

Example: DL400 is SVI # 8000-030

TUFFPLATE® is -TF,

so new SVI # with straps = 8000-030-TF-S

Full Cover

Models DL1402ASC, DL1802ASC, DL1800ASC, DLB1500ASC, DL2102ASC feature a polymer enclosure and strap. Add - SC to part #

Hand Brakes

These are optional on DL1800A, DL2000A, DL2500A & DL3200A. Add -B to order Hand Brake.

Example: 8000-039-TF-B

Gear Cover

Models DL1300A & DL1402A can also be ordered with a black polymer gear cover. Add -GC to part #

Choose your plating

For Bronze, add -BR to part #

For TUFFPLATE®, add -TF to part #

For Black, add -BK to part #

Larger Reel Hubs

All models may be ordered with a large diameter reel hub. SAE Standard J1853 requires large hubs for steel cables. Add -LH for the large Hub.

Handle Lengths

Optional Handle Lengths are available for winches purchased in bulk quantities.

DL600A to DL1402A:

4-3/4", 5", 6", 7" & 9-1/2"

DL1602A to DL3500B:

6", 8", 9-1/2", 11"

Brake Winches

D-L Brake Winches are suitable for many lifting and lowering applications. Self-locking brake winches provide additional safety and control for many lifting and pulling jobs. The automatic friction brake supplies constant, positive holding action and prevents a runaway load. Brake is fully automatic and the load remains in position any time the handle is released. A load is required to pull line from the winch drum.

Brake Winch Features

- Laminated high carbon steel gears are heat treated for longer life
- Embossed, reinforced bases for extra strength
- Meets ASAE Safety Standard S361.3
- Handle is integral part of braking mechanism
- Cable clamp standard. Cable not included
- Ratcheting handle for limited cranking space is available
- DLB series available in powder coated copper bronze or zinc plated TUFFPLATE® finish

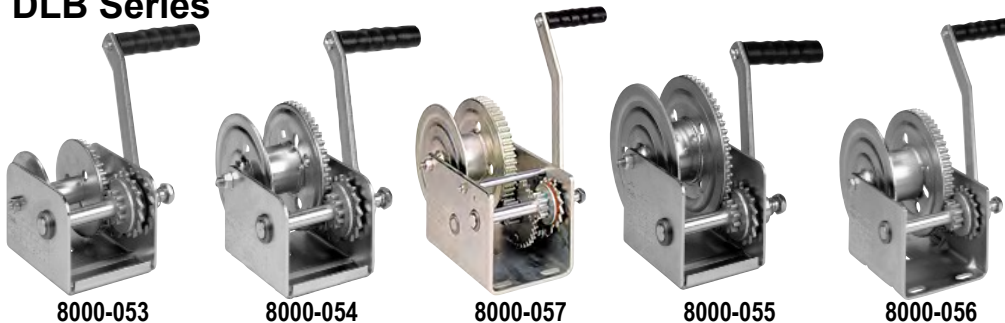

All D-L brake winches are built for multipurpose hauling and lifting operations. They are not to be used as hoists for lifting, supporting or transporting people, or for loads over areas where people could be present.

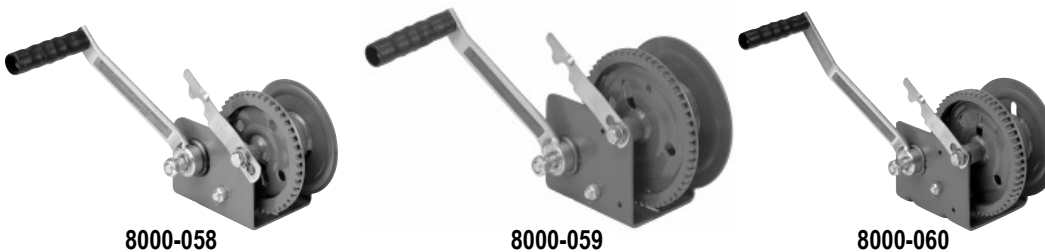

DLB Models have brake winch safety and rugged construction at an economical price. DLB series available in powder coated copper bronze or zinc plated TUFFPLATE® finish

DLB Series

Freewheeling Feature

In addition to the standard features these 3 models offer the ability to freewheel under no load conditions.

(1) Capacity based on direct line pull on third layer of line on drum. Capacity is reduced as line builds up on drum.

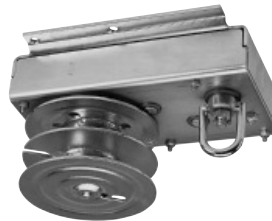

(2) Capacity based on direct line pull on first layer of line on drum. Capacity is reduced as line builds up on drum.

(3) Drum capacity shown is based on cable size listed. **(Cable not included)** B series winches are not strap adaptable.

(4) 4000 lb Capacity based on using 2 cables in opposite directions. Single cable capacity is 2000 lb.

All D-L brake winches are built for multipurpose hauling and lifting operations. They are not to be used as hoists for lifting, supporting or transporting people, or for loads over areas where people could be present.

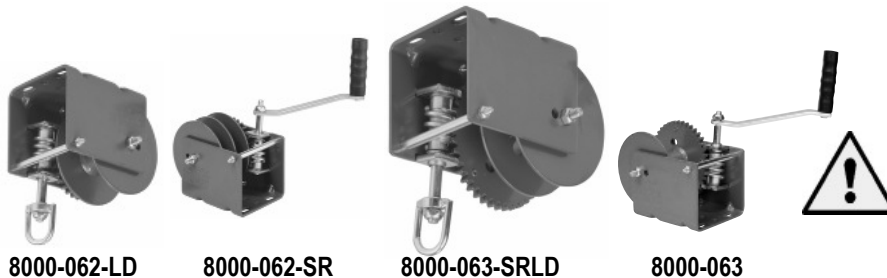

8000-052 Model B4010A

Designed for ceiling mount applications.

4000 lb rated capacity loop drive brake winch with split reel. Allows for pulling of 2 cables in opposite directions. Zinc plated TUFFPLATE® finish

Worm Gear Winches

Applications requiring safe, controlled movement of loads need D-L worm gear winches. The reel automatically stops turning whenever cranking is stopped. There is no freewheel mode, no special mechanism required to stop gear movement and they do not require a minimum load for operation.

All D-L brake winches are built for multipurpose hauling and lifting operations. They are not to be used as hoists for lifting, supporting or transporting people, or for loads over areas where people could be present.

Cables/Chains

SVI #	Model #	Description	SAE Class	Cable or Chain Length & Type	Link Size
8000-352	6255	2-18" Safety Chain	1	Two 18" Chains	3/16"
8000-351	6217	2-24" Safety Chain	1	Two 24" Chains	3/16"
8000-353	6227	2-36" Safety Chain	2	Two 36" Chains	5/0
8000-354	6254	2-36" Safety Chain	3	Two 36" Chains	1/4"
8000-350	6000	40" Safety Cable	4 (6500 lb)	Two 40" Cables	5/16" coated
8000-355	6299	5/16" x 36" Safety Cable Set	4 (10000)	Two 36" Cables	5/16"

All safety chains are welded link construction with a bright zinc plated finish. Each chain includes a heavy steel hook with safety clip. Meets SAE and V-5 Standards. 2/pkg.

8000-350 safety cable is 5/16" vinyl coated cables with safety hooks. For use on trailers up to 6500 lbs. Coil tension eliminates dragging and rattles. Cables extend to 40'. Meets SAE and V-5 Standards. Sold in pairs

8000-355 = 5/16" cables with extra large safety snap hook. Class IV. For use on trailers up to 10,000 lbx. Cables extend to 36". Sold in Pairs.

SVI—Since 1977.

Spare Tire Carriers and Parts

SVI #	Model #	For:
8000-213	6121	Extends spare tire up & away from trailer & boat. Hvy duty steel construction. Fits wheel sizes 9" - 14", 4 or 5 hole rims and trailer tongues up to 3" x 5". Complete w/mounting hardware. Black Powder Coated painted finish
8000-214	6121	Extends spare tire up & away from trailer & boat. Hvy duty steel construction. Fits wheel sizes 9" - 14", 4 or 5 hole rims and trailer tongues up to 3" x 5". Complete w/mounting hardware. Zinc Plated TUFFPLATE® Finish
8000-215	6126	Extra Offset Spare Tire Carrier extends the tire at an angle to avoid damage or marring of boat finish. TUFFPLATE finish. Fits wheel sizes from 13" - 15", 5 hole rims and trailer tongues 2" or 3" wide, up to 5" tall.
8000-220	6259	Tipperlatch, for use on tilt-bed medium & light duty trailers such as PWC, snowmobile & utility. Automatic latch holds tilt bed securely in place. Spring loaded non-pinching latch for easy release. TUFFPLATE® finish.
8000-219	6221	Spare tire carrier & Dolly Bracket. Revolving. Fits either 4 or 5 hole rim for 8", 9" & 12" tires. Padlock hole in main shaft. Fits 3" x 3" and 3" x 4" square tongues. Black Powder-coated finish
8000-216	6220	Spare Tire Carrier Extra length for handling of wide tires or spans wider tongues of custom built trailers. Fits 4 or 5 hole rims. Zinc Plated Finish
8000-217	6280	Spare Tire Carrier With lock, adds extra protection. Fits 4 or 5 hole rims. Zinc Plate Finish
8000-218	6281	Same as 8000-217 spare tire carrier, less the padlock

Couplers

A key element of easy hitching, unhitching and safe trailer towing is a strong and efficiently operating coupler system, properly installed on the tongue of the trailer. D-L couplers (except 992-3 & 998-4) offer an exclusive Quick-Lock ball clamp assembly that can be adjusted without wrenches. This feature provides a precise fit on the hitch ball while the trigger action release allows fast locking and unlocking. The lock lever is held securely closed by cam action and the safety latch. Model 992-3 uses a yoke for extra strength and model 998-4 uses heavy-duty welded construction.

FEATURES:

- D-L couplers, coupler balls and trailer safety chains meet all requirements of SAE J684 and VESC V-5 standards, for class 1,2,3 and 4.
- Two 50 mm models comply with 94/20/EEC standards for use in European Community
- Couplers are easily and quickly unlocked by a trigger action release on safety lever
- Safety pin can be inserted through a hole in lever to provide a secondary means of securing ball clamp in a locked position
- A-frame couplers are designed to be mounted on frame members set at 50°
- A padlock may be substituted for pin if security against trailer theft is desired

8000-287	6257	2&3	2"

SVI # 8000-289
Coupler Grip

Bolts onto coupler with universal mounting holes.

Fits 1-7/8" and 2" couplers. Coupler grip provides convenient and safer way to guide trailer tongue to and from coupler ball. Ideal for personal watercraft and other light-weight trailers. Zinc plated TUFFPLATE® finish with large comfortable grip.

SVI # 8000-288

Bump-Me® Coupler-Vehicle Cushion

Absorbs blow between coupler & towing vehicle when hook-up is misjudged. Slips onto the coupler flange. No tools required. Molded with U.V. inhibitor, resists

deterioration and stays flexible in all kinds of weather. Fits most brands of Class 1-4 couplers.

Tongue Jacks

When hitching and unhitching loaded trailers, D-L tongue jacks are real back savers. These easy-to-install smooth operating tongue jacks can be mounted in a variety of ways on various sizes of trailer tongues. Heavy-duty D-L tongue jacks reduce the physical effort required to maneuver a loaded trailer into hitching position or removing the trailer from a vehicle. All models are made from heavy gauge steel for strength and durability.

FEATURES

- Enclosed outer tube retards the sand and dirt from contracting miter gears and heavy duty Acme screw
- Fits square tongues up to 3" x 5". All mounting hardware included
- 2-1/2" diameter mounting hole in swivel bracket fits most brands of mounting hardware
- Floating miter gears allow for proper clearance and easier operation
- Maximum maneuverability from offset swivel caster assembly
- Zinc plated TUFFPLATE® finish for longer life
- Tough polypropylene wheels or zinc plated foot
- Ergonomic hand grip with textured surface

8000-153B 8000-154B

8000-144

A-Frame Jack
Jack has 2000 lb capacity when used as is, or with 8000-180 foot added. Can also be used with the 8000-179 wheel, which reduces capacity to 1250 lbs. Each jack includes a support plate to weld to the underside of the trailer for additional rigidity. This model has a painted black finish and is available in bulk pack only. 1 year limited warranty

8000-180
5000 lb capacity removable foot for A-frame Ag-Industrial Jacks

8000-179
1250 lb capacity removable wheel for A-Frame Ag-Industrial Jacks.

The support bracket (also sold separately as model 6612) is included with A-frame jacks with a "B" following the model number - 3670B, 6670B, 6671B. It comes unfinished, ready to be welded to underside of trailer. This bracket provides extra stability to the jack, so it won't "lean" under load.

Jacks Accessories and Parts

SVI #	Model #	Description
	6600	Black, powder coated steel, comes in 4 pcs, some assy required.
8000-175	6608	Wheel lock, fits most tongue jacks with 6" wheel. Grips wheel to eliminate wheel roll. Step on one end to lock, opposite end to release. Kit includes locking lever, cam, and mounting bolt

E series Slip Ring Anchors

Feature a single piece of crown construction enhancing anchor strength, uniquely formed flukes providing more rigid penetration and slip-ring design for easy retrievability. Available galvanized or tough black urethane powder coat

Deluxe Anchors use a traditional lightweight design. Fully welded crown configuration provides properly engineered angles for ultimate holding power and secure penetration. Galvanized finish.

Models 8,13,18 also available with tough black urethane powder coat

Anchor Kits Available:

10EK Slip Ring Anchor Kit
recommended for boats up to 24' in length. For use in snag filled bottoms and less turbulent water and wind conditions. Contains:
(1) 10E SENTINEL® Slip Ring Anchor
(2) 5/16" galvanized shackles
(1) 1/4" x 4 ft galvanized chain
(1) 3/8" x 100 ft nylon anchor line

8K Deluxe Anchor Kit
recommended for boats up to 24' in length. For use in clean bottoms -sand/mud- and varying surf and wind conditions. Contains:
(1) 8 SENTINEL® Deluxe Anchor
(2) 5/16" galvanized shackles
(1) 1/4" x 5 ft galvanized chain
(1) 3/8" x 100 ft nylon anchor line

13K Deluxe Anchor Kit
recommended for boats up to 30' in length. For use in more difficult anchorages where wind and water conditions vary. Contains:
(1) 13E SENTINEL® Deluxe Anchor
(2) 5/16" galvanized shackles
(1) 1/4" x 6 ft galvanized chain
(1) 3/8" x 150 ft nylon anchor line

Towing Products

When towing a trailer, safety always comes first. Nowhere is that more important than the connection point itself. D-L couplers are a great place to start. Adjustable by hand, their patented ball clamp assembly helps the user make sure that a good connection has been made. When used with D-L coupler balls and ball mounts, you can travel with confidence that your trailer is in good hands.

Couplers and Ball Mounts

D-L Ball Mounts meet SAE and V-5 standards and are protected by a black powder-coated finish. Model 6005 fits 1-1/4" receivers, and others fit standard 2" receivers, in a variety of configurations. Can be used "right side up", allowing drop to level trailer, or if needed, "upside down", with rise dimension for leveling.

SVI #	Model #	SAE class	Capacity	Receiver Size	Hole Size	Length	Drop	Rise
8000-221	6005	2	3500	1-1/4" x 1-1/4"	3/4"	7"	2*1/2"	2"
8000-222	6006	3	5000	2" x 2"	1"	10"	2"	3/4"
8000-223	6007	3	5000	2" x 2"	1"	11"	3-1/4"	2"
8000-224	6008	3	5000	2" x 2"	1"	11"	5-1/4"	4"

8000-227

Receiver Cover

Made of black rubber, attaches to receiver and "plugs" into end when not in use. Simply "unplug" when trailering and it hangs in place.

8000-221

8000-222

8000-223

8000-224

D-L Couplers feature the exclusive Quick-Lock ball clamp assembly that can be adjusted without wrenches so it's more likely to get adjusted, providing a better fit. TUFFPLATE® finish has 3 times the corrosion resistance of standard zinc. Model 940 fits 1-7/8" ball, 2" tongue width. Model 980 fit 2" ball, 3" tongue width. Both meet SAE and V-5 standards

**Coupler Balls
also available
from SVI!**

SVI also offers:

- Cables • Canopies • Winch Tubes • Bunks
- Motors • Pulleys • Dock & Boat Accessories
- Solar Products • Marine and Trailer Products
- And Much More!

Connectors and Adapters

Another important step in safety is trailer lighting. In addition to the lights themselves, a number of accessories are available to help make hookups fast and easy. These commonly used adapters and wiring items are "must haves" for owners that hookup to multiple trailers. They're universal, able to be used on a wide variety of vehicles and trailers.

**8000-257 / OEM 6078
4-way Flat Connector**
Two 12" leads, each with 4-way flat connector. To be wired in between vehicle & trailer, provides a way to easily plug and unplug connection

**8000-255 / OEM 6076
Connector Harness,
7-way/car end**
Handy dual-use item can be wired into your system, exposing receptacles for either a 7-way round plug or 4-way flat plug

**8000-254 / OEM 6075
Trailer Adapter
7-way/4-way**
Keep one in your glove box for situations that require converting 7-way round connection to 4-way flat or vice versa

**8000-258
Trailer Connection
7-way/5-way**
Keep one in your glove box for situations that require converting 7-way round connection to 5-way flat or vice versa

**8000-256
Universal Wiring Kit**
Repair kit for small trailers. Trailer end has 20 ft lead; car end has 4 ft lead. Both have 4-way flat connectors on one end. Comes with 6 splices

Towing Products

Hitch Safety

8000-225 / OEM 6011

Hitch Pin with Clip

Secures ball mount to hitch. 1/2" solid steel pin comes with 5/8" adapter, to fit either hole size. Zinc plated finish

8000-229 / OEM 6015

Brass Coupler Lock

Fits through coupler lock lever to deter theft. Brass/Stainless

*SVI has a great
boat lift chain and
cable selection!*

8000-226 / OEM 6012

Deadbolt Receiver Lock

Adds extra security. Just slide through hole in receiver and snap lock on. 1" shaft plus 5/8" adapter sleeve, to fit either hole size. Chrome finish. Comes with 2 keys and dust cap. Fits 2" square receiver.

8000-228 / OEM 6014

Quick Link

Allows quick attachment and removal of safety chains. 5000 lb capacity, zinc plated finish. Sold in pairs

Accessories

These hard-working items make tough jobs easier. Tow ropes and straps help transport disabled vehicles and get them to the point of repair.

8000-230 / OEM 6020

Tow Hook

Great for securing tow ropes, straps and log chains. Avoids damage to vehicle bumper or frame. 10,000 lb capacity.

Includes mounting hardware and spring steel clip to keep strap or chain from slipping out of hook. Chrome finish

8000-232

Tow Strap

2" x 20 ft, with forged hooks. 10,000 lb capacity

8000-231 / OEM 6023 **Tow Rope**

18mm polypropylene rope, 14 ft length. 6800 lb capacity, forged safety hook and protective rubber sleeve on each end.

Straps

EPDM Rubber Tarp Straps

With steel hooks for standard applications.

Toggle Bolt Anchor Point

Newer style, sleeker design. Fits well in

trucks with bed liners. Sold in pairs. 6 pairs/carton

8000-234 / OEM 6028

Eyebolt Anchor Point

Sturdy original style, with expandable rubber block. 6/carton

Winch Strap

Display-packaged ready for placement on retail shelf.

8000-000

includes 18 each 15' straps

8000-000

includes 12 each 20' straps

Cargo Nets

8000-235 / OEM 6030

Truck Bed Cargo Net

78" x 60" size for pickup bed. Adjustable and easy to install. 6mm black cord with 20 hooks. 4/carton

8000-236 / OEM 6031

ATV Cargo Net

15' x 30" black net for rear of ATV. Eight black metal hooks with rubber tips. 6/carton

4 ft. Towing Planogram

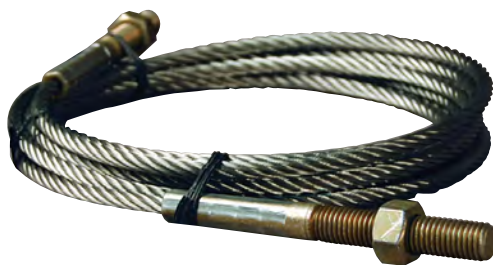

**TERMS AND CONDITIONS OF THE
SALES ORDER
FOR SVI INTERNATIONAL, INC.**

1. **GENERAL.** The terms and conditions of sales order outlined herein shall apply to the sale by SVI INTERNATIONAL, INC. (hereinafter referred to as "Company") of the items described on the facing page (hereinafter referred to as "Merchandise") to Purchaser.
2. **DELIVERY.** Delivery shall be deemed to be complete when the Merchandise has been shipped F.O.B. Company's plants in DeKalb, Illinois, Montclair, California; and Baltimore, Maryland ("Company's plants"). Shipments are subject to delays from causes or contingencies beyond the reasonable control of the Company. When otherwise not specified, shipments will be made in standard containers via carrier which, in the judgment of the Company, will result in the most practical method. Title and right of possession will pass to the Purchaser upon receipt by the carrier at the shipping point. If a customer of the Company should specify a specific carrier's method of shipment (i.e. UPS Next Day Air) and that carrier does not perform to the customer's expectations, freight credit to a customer's account will not be issued unless the Company can first obtain a credit.
3. **RISK OF LOSS.** Identification of the Merchandise under Uniform Commercial Code (hereinafter referred to as "UCC") Section 2-501 shall take place at the moment of shipment F.O.B. Company's plants. Risk of loss shall pass to the Purchaser when the Merchandise is shipped from the Company's plants.
4. **TITLE.** Title to the merchandise shall transfer to the Purchaser when the Merchandise is shipped from the Company's plants.
5. **WARRANTIES.** The Company guarantees its products to be free from defects in workmanship and raw materials for a period of one year from date of purchase. THIS WARRANTY IS EXPRESSLY IN LIEU OF ANY AND ALL WARRANTIES EXPRESS OR IMPLIED. COMPANY DOES NOT WARRANT THE MERCHANDISE IS MERCHANTABLE OR FIT FOR ANY PARTICULAR PURPOSE. Company's liability for breach of the terms of this Agreement, including any warranty, is limited to either refund of the invoice price of the Merchandise or at Company's option, replacement of the Merchandise free of charge, including transportation charges but not including the cost of labor. Purchaser has not relied on any statement or upon the conduct of Company with respect to the prospective use of the merchandise. Company shall not be liable for and Purchaser waives any and all claims for any loss or damage, directly or indirectly, arising from the use of the Merchandise and for punitive, incidental or consequential damages, including, but not limited to, damages to property, for loss of use, loss of time, loss of profit or loss of income. The Company does not authorize the sale of our products under any other warranty, expressed or implied.
6. **SETOFF.** All claims for money due or to become due from the Company shall be subject to deduction by the Company for any setoff or counterclaim arising out of this or any other claims of the Company or its affiliated companies, whether such setoff or counterclaim arose before or after any assignment by Purchaser.
7. **INDEMNIFICATION.** Purchaser agrees to indemnify the Company and hold it harmless from and against all claims, liability, loss, damage or expense, including reasonable counsel fees, arising from or by reason of any modifications or alterations made by Purchaser. If a customer of the Company modifies or alters any part, in any manner whatsoever, or uses any part in departure from recommended performance specifications, said customer agrees to indemnify and hold the Company harmless from and against all liability and expenses based on damage to property or injury to or death of any person arising out of or attributable to such modified or altered part. Further, the Company will not accept any such modified or altered part for credit to a customer's account.
8. **FREIGHT POLICY.** Freight charges on individual orders less than \$3000 in net value, are prepaid and added to invoice or collect FOB shipping point. Freight charges on one shipment only (standard ground service and to the continental US only) on most \$3000 net value orders may be paid by SVI International, Inc. - FOB shipping point. Please speak to your Salesperson for exceptions to this Freight policy for your specific order. Note: Customers with COD terms are responsible for all carrier COD fees regardless of order, including refusal fees.
9. **RETURN POLICY.** To return a part for credit or inspection, Purchaser must first contact our Main Office in Illinois, to obtain a Return Merchandise Form. Once Purchaser has obtained this form, the parts can be returned freight prepaid only. The Return form must be included with the shipment. Parts returned to the Company without the approved form will be returned freight collect to the shipper or refused. Returns must be initiated within 60 days of the invoice date. The Return Forms are valid for 60 days, from the date of issue. All Returns are subject to 25% restocking charges. Return parts brought into our remote warehouses, will not be accepted by our personnel, without a Return Merchandise Form from the Main Office. Parts which have been used in any way or manner, including any installation or incorporation into a lift, hoist, or other equipment, shall NOT be eligible for return whether or not a Return form has been assigned.
10. **RESTOCK CHARGE.** Returns are subject to up to twenty-five (25%) restocking charge. Refusals are subject to the same restocking charge plus the cost of outbound and return freight charges and/or fees incurred by the Company due to shipment refusal.
11. **PRICES AND PAYMENTS.** All prices are subject to change without notice. All prices are F.O.B. shipping point. The Company standard terms are net 30 days, C.O.D. company check, C.O.D. cash, VISA, MasterCard, Discover or American Express. However, if in the judgment of the Company, the financial condition of the Purchaser at any time does not justify shipment according to standard terms of payment, the Company may require full or partial payment in advance.
12. **INTERPRETATION.** This sales order is intended by the parties as a complete and exclusive statement of the terms of their agreement. It supersedes all prior agreements, written or oral. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any terms used in this sales order. Acceptance or acquiescence in a course of performance rendered under this purchase order shall not be relevant to determine the meaning of this sales order even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity for objection. Whenever a term defined by the UCC is used in this sales order the definition contained in the UCC shall control.
13. **MODIFICATION.** This sales order can be modified or rescinded only by a writing signed by both parties.
14. **WAIVER.** No claim or right arising out of a breach of this sales order can be discharged in whole or in part by a waiver or renunciation of the claim or right unless such waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party.
15. **ASSIGNMENT.** No right or interest in this sales order shall be assigned by either party without the written consent of the other and no delegation of any obligation owed, or of the performance of any obligation by either the Company or Purchaser shall be made without the written consent of the other party. Any attempted assignment or delegation not made in conformity with this paragraph shall be wholly void and totally ineffective for all purposes.
16. **TIME TO PERFORM AND BRING ACTION.** Time is of the essence of this sales order. Any action for breach of this sales order shall be commenced within two (2) years after the cause of action has accrued. Any party who loses any litigation shall reimburse the other party for costs including reasonable attorney's fees. The exclusive jurisdiction for any legal action shall be the Circuit Court of DeKalb County, Illinois.
17. **APPLICABLE LAW.** This sales order shall be governed by the UCC of Illinois as effective and in force on the date of this sales order.
